## Info-Link SiriusXM Programming Guide

1. Go to URL www.infolinksirius.com and use your user ID and password to log into the programming web site.

If you have not registered, enter your Link Account Number in both the Account Number and Password locations and click on Register.

2. Choose to schedule your SiriusXM Radio Channels or your on-hold messages.

3. To schedule a new SiriusXM playlist, click on "Create New Sequence."

4. You will be prompted to give your new sequence a name.

5. From here you will choose the SiriusXM channels you would like to play, along with the times they will play. We suggest you set the volume to 20 so that you can always decrease the volume remotely in case someone on-site sets it too high.

Jnited SOLUT	Viedia IONS	kome: Jennifer Brasington     Ryan DeVlougin     800-373-8200 Ext: 101     Email: Ryan DeVlougin     Email: Ryan DeVlougin     Email: Ryan DeVlougin

	(31) - Radio Margaritaville (33) - The Bridge (33) - The Bridge	2 12:00 Mid 8 20 20 2 AM 0. 2 Mext > Est ↑

6. This is an example of how a finished 24-hour sequence will look.

When you are satisfied with your selection, click on the Manage Sequence button.

You must schedule for all 24 hours in a day, even if there is no music playing.

 9. This will take you to a screen which lets you review your playlist selection before you transmit to the site(s).
 Once everything is reviewed and to your satisfaction, click on the Continue Send Xmit to Sites button.

16. That's it. You have successfully programmed your on-hold messages and overhead music stations. www.infolinksirius.com
